

Tucker Engineering/Tuck's Cards

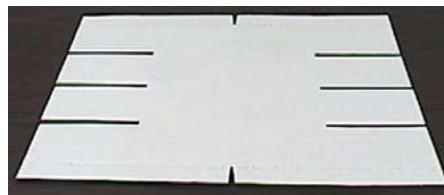

INSTRUCTIONS FOR ASSEMBLING THE CARD HOUSE

The Card House consists of a total of six (6) pieces.
You should have the following before you begin:

One (1) of Section 1

Two (2) of Section 2

Three (3) of Section 3

Tucker Engineering/Tuck's Cards

Take **Section 1** and unfold it.
Start at bottom and fold **Section 1** as shown below:

Bend the flaps at the top of **Section 1** away from the center of the box as shown below:

Fold all of the **Section 2** and **Section 3** pieces so that only the white part is showing. Place the three (3) **Section 3** pieces into the two (2) **Section 2** pieces using the provided slots. Refer to images below:

Tucker Engineering/Tuck's Cards

With the flaps of **Section 1** pushed away from the center of the box, slide the newly assembled partitions in **Section 1** as shown below:

Once you slide the partitions into **Section 1** start folding down the flaps to lock the partitions into place as shown below:
